Griya Parungpanjang, Tangerang, Banten

I am an Informatics Engineering graduate student with a Web Developer degree. I have various experiences in the world of informatics, especially in the field of building websites. I once worked as a web dev & quality assurance at a PT engaged in the food sector, where I created a website used by the warehouse to select items. In addition, I also have experience in the field of Communications at a Statistics Agency. There, I learned how to communicate with people who need to be more literate about technology to conduct an annual census.

Work Experiences

Kuwa Kuwi Cafe - Tangerang, Indonesia

Jul 2022 – Sep 2023

Operation Manager

- Managing customers: Operations managers must ensure customers are comfortable and happy with the cafe's services, including customer service and food and beverage service.
- Manage staff: Operations managers are responsible for recruiting, training, supervising, and motivating their staff to work effectively and efficiently.
- Manage supplies and inventory : An operations manager monitors and manages food and beverage stock, supplies, and other inventory. They must ensure that supplies are always sufficient and in good condition.
- Negotiate with customers who want to reserve a place to make an event.
- Determine the right vendor to apply at Kuwa Kuwi Cafe for customer convenience (selection of internet providers, selection of cashier applications).
